

4th Quarter 2016 Earnings Report

February 16, 2017

This presentation should be reviewed in conjunction with CVR Refining, LP's Fourth Quarter earnings conference call held on February 16, 2017. The following information contains forward-looking statements based on management's current expectations and beliefs, as well as a number of assumptions concerning future events. These statements are subject to risks, uncertainties, assumptions and other important factors. You are cautioned not to put undue reliance on such forward-looking statements (including forecasts and projections regarding our future performance) because actual results may vary materially from those expressed or implied as a result of various factors, including, but not limited to those set forth under "Risk Factors" in CVR Refining, LP's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and any other filings CVR Refining, LP makes with the Securities and Exchange Commission. CVR Refining, LP assumes no obligation to, and expressly disclaims any obligation to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent required by law.

All information in this earnings report is unaudited other than the consolidated statement of operations data for the year ended December 31, 2015 and the balance sheet data as of December 31, 2013 through 2015.

Consolidated Selected Financials and Key Performance Indicators

Consolidated Financial Results <i>(In millions, except for throughput and market data)</i>	Fourth Quarter		Year to Date	
	12/31/2016	12/31/2015	12/31/2016	12/31/2015
Net Income (Loss)	\$ (10.7)	\$ (122.2)	\$ 15.3	\$ 291.2
Gross Profit (Loss)	\$ 34.6	\$ (114.7)	\$ 152.4	\$ 439.1
Refining Margin ⁽¹⁾⁽²⁾⁽³⁾	\$ 139.5	\$ 132.1	\$ 620.0	\$ 1,078.6
Operating Income (Loss)	\$ 15.3	\$ (135.5)	\$ 77.8	\$ 361.7
Adjusted EBITDA ⁽⁴⁾⁽⁵⁾	\$ 27.7	\$ 16.4	\$ 222.8	\$ 602.0
NYMEX 2-1-1 Crack Spread	\$ 14.70	\$ 14.00	\$ 14.66	\$ 20.41
PADD II Group 3 2-1-1 Crack Spread	\$ 11.60	\$ 13.91	\$ 12.39	\$ 18.34
Refining margin (per crude oil throughput barrel) ⁽¹⁾⁽²⁾⁽⁶⁾	\$ 7.32	\$ 8.96	\$ 8.55	\$ 15.31
Direct Operating Expenses excluding Major Scheduled Turnaround Expenses (per crude oil throughput barrel) ⁽⁷⁾	\$ 4.96	\$ 7.04	\$ 4.99	\$ 5.34

Balance Sheet and Cash Flow Data <i>(In millions, except per unit data)</i>	Fourth Quarter
	12/31/2016
Cash and Cash Equivalents	\$ 314.1
Total Debt, including current portion ⁽⁸⁾	\$ 546.9
Partners' Capital	\$ 1,296.7
Cash Flow from Operations	\$ 81.4
Available Cash for Distribution	\$ —
Available Cash for Distribution, per unit ⁽⁹⁾	\$ —

Consolidated Capital Spending Summary

	2013	2014	2015	2016	2017 Estimate
Environmental & Maintenance	\$169.6	\$140.3	\$103.4	\$63.6	\$137.0
Growth	34.9	51.0	91.3	38.7	20.0
Total Capital Spending	\$204.5	\$191.3	\$194.7	\$102.3	\$157.0

Note: Refer to slide 20 for metrics used in calculations

Appendix

To supplement the actual results in accordance with GAAP for the applicable periods, the Partnership also uses non-GAAP financial measures as discussed below, which are reconciled to GAAP-based results. These non-GAAP financial measures should not be considered an alternative for GAAP results. The adjustments are provided to enhance an overall understanding of the Partnership's financial performance for the applicable periods and are indicators management believes are relevant and useful for planning and forecasting future periods.

EBITDA and Adjusted EBITDA. EBITDA represents net income (loss) before (i) interest expense and other financing costs, net of interest income, (ii) income tax expense and (iii) depreciation and amortization. Adjusted EBITDA represents EBITDA adjusted for (i) FIFO impact (favorable) unfavorable; (ii) share-based compensation, non-cash; (iii) loss on extinguishment of debt; (iv) major scheduled turnaround expenses (that many of our competitors capitalize and thereby exclude from their measure of EBITDA and adjusted EBITDA); (v) (gain) loss on derivatives, net; (vi) current period settlements on derivative contracts and (vii) flood insurance recovery. We present Adjusted EBITDA because it is the starting point for our calculation of available cash for distribution. EBITDA and Adjusted EBITDA are not recognized terms under GAAP and should not be substituted for net income (loss) or cash flow from operations. Management believes that EBITDA and Adjusted EBITDA enable investors to better understand our ability to make distributions to our common unitholders, help investors evaluate our ongoing operating results and allow for greater transparency in reviewing our overall financial, operational and economic performance. EBITDA and Adjusted EBITDA presented by other companies may not be comparable to our presentation, since each company may define these terms differently.

Available cash for distribution is not a recognized term under GAAP. Available cash should not be considered in isolation or as an alternative to net income (loss) or operating income (loss) as a measure of operating performance. In addition, available cash for distribution is not presented as, and should not be considered, an alternative to cash flows from operations or as a measure of liquidity. Available cash as reported by the Partnership may not be comparable to similarly titled measures of other entities, thereby limiting its usefulness as a comparative measure.

Refining margin per crude oil throughput barrel is a measurement calculated as the difference between net sales and cost of materials and other. Refining margin is a non-GAAP measure that we believe is important to investors in evaluating our refineries' performance as a general indication of the amount above our cost of materials and other at which we are able to sell refined products. Each of the components used in this calculation (net sales and cost of materials and other) can be taken directly from our Statements of Operations. Our calculation of refining margin may differ from similar calculations of other companies in our industry, thereby limiting its usefulness as a comparative measure. In order to derive the refining margin per crude oil throughput barrel, we utilize the total dollar figures for refining margin as derived above and divide by the applicable number of crude oil throughput barrels for the period. We believe that refining margin is important to enable investors to better understand and evaluate our ongoing operating results and allow for greater transparency in the review of our overall financial, operational and economic performance.

Refining margin per crude oil throughput barrel adjusted for FIFO impact is a measurement calculated as the difference between net sales and cost of materials and other adjusted for FIFO impact. Refining margin adjusted for FIFO impact is a non-GAAP measure that we believe is important to investors in evaluating our refineries' performance as a general indication of the amount above our cost of materials and other (taking into account the impact of our utilization of FIFO) at which we are able to sell refined products. Our calculation of refining margin adjusted for FIFO impact may differ from calculations of other companies in our industry, thereby limiting its usefulness as a comparative measure. Under our FIFO accounting method, changes in crude oil prices can cause fluctuations in the inventory valuation of our crude oil, work in process and finished goods, thereby resulting in a favorable FIFO impact when crude oil prices increase and an unfavorable FIFO impact when crude oil prices decrease.

Consolidated Non-GAAP Financial Measures

Calculation of Consolidated Refining Margin adjusted for FIFO impact ⁽¹⁾ (\$ in millions)	Fourth Quarter		Year to Date	
	12/31/2016	12/31/2015	12/31/2016	12/31/2015
